

# Kelly and the Scarf

## Activities for Parents and Teachers

1. Kelly is kind to the little girl and the little girl is kind to Kelly. What did they do for each other. ? Write a story about a person and an animal showing kindness to each other.
2. Make a list of all the animals you see in one day at or near your house. Write a story about one of them.
3. Make a list of all the birds you see each day at your house for a week. Look them up in a bird identification book and learn about them. A book I like is A Field Identification, Birds of North America, a golden Field guide from St. Martin's Press, by Chandler s. Robbins, et.al. Check your library for more books.
4. Make a list of birds that live in different habitats. Read about habitats and birds on line:

6. Do research on how different kinds of animals stay warm.

7. John James Audubon was a famous ornithologist (person who studies birds). He also painted pictures of birds. Find some of his pictures to look at and paint some pictures of birds you see.
